VITA NET

Acid-based detergent for floors and coverings

CHARACTERISTICS

VITA NET is a colourless, acid-based detergent suitable for removing traces of cement and lime after laying floors and coverings in ceramic, terracotta, marble, etc., both indoors and outdoors.

FIELDS OF USE

VITA NET is indicated for the post-installation cleaning of floors and coverings in ceramic, terracotta, marble, etc., both indoors and outdoors, in order to eliminate traces of cement or lime from the surfaces.

PREPARATION OF THE SUPPORT

Before applying the product, remove all flaking parts and any residual encrustations of adhesives, plasters, etc., with the aid of a wire brush. Then clean the surface and leave to dry.

HOW TO USE

Dilute **VITA NET** with clean water depending on the substrate and apply with a brush or sponge.

Leave to act for at least 30 minutes and then proceed with cleaning the surfaces until the stains or encrustations are completely removed. Finish the treatment with abundant washings of clean water.

WARNINGS

- Apply the product without adding foreign materials.
- Dilute the product according to the substrate only with clean water from 20 to 50%. • Do not apply if there is a threat of rain or rain. • Do not apply in the presence of beating sun and strong wind.
- **VITA NET** must be applied at temperatures between 5° C ~ 30° C.
 - Pay particular attention to absorbent surfaces.
- It is recommended to start cleaning surfaces starting from the perimeter areas.

SPECIFICATION ITEM

Acid-based, colourless detergent, suitable for post-laying cleaning of floors and coverings in ceramic, terracotta, marble, etc., both indoors and outdoors, in order to eliminate traces of cement or lime from the surfaces, to be applied with a brush or sponge, to be diluted with clean water from 20 to 50% depending on the support, with a consumption based on use, such as **VITA NET BUFFA**.

TECHNICAL DATA

DILUTION	with clean water from 20 to 50% depending on the substrate inorganic
COMPOSITION	acids 1003 \pm 0.010
SPECIFIC WEIGHT	g / lt 20 cps at 20° C
VISCOSITY	colourless
COLOR	
TRIP	depending on the use
PACKAGES	1 x 12 lt or 5 x 4 lt boxes, 25 lt cans 12 months, in intact
STORAGE	packages away from sources of frost, heat and humidity as it is an acidic product, avoid
TOXICITY	<p>contact with metal and marble surfaces that are not resistant to acids.</p> <p>Use gloves, rubber boots and protective glasses.</p> <p>If the product comes into contact with the skin, wash with soap and water and rinse thoroughly</p>

ATTENTION

The information, instructions and indications above are the result of our best technical and applicative knowledge; nevertheless, they are to be considered purely indicative. Therefore, it is the user's responsibility to verify, assuming full responsibility, the compatibility of the products with the intended use, since we cannot intervene directly on the conditions of the construction sites and the methods of carrying out the works. In this regard, a preliminary test is recommended in order to verify the suitability of the product for the intended use.
